Mr. R. E. MacAdams  
Safety & Environmental Supervisor  
Texasgulf Chemicals Company  
P. O. Box 1208  
Moab, Utah 84532

Dear Mr. MacAdams:

RE: Mining and Reclamation Plan Submittal, Texasgulf Chemicals Company, Cane Creek Mine, ACT/019/005, Grand County, Utah

The Division is in receipt of your January 17, 1985 letter regarding submission of the revised Mining and Reclamation Plan (MRP) for the above referenced operation. I apologize for the delay in the Division's response regarding concurrence in delaying this submittal.

Due to your current situation in assessing mining feasibility and market potential and results of this assessment not being known until later this year, it is understandable that you should desire a delay in the submittal until such time as your plans are solidified. The Division concurs that this will save work for your company and may possibly save regulatory review time as well. Therefore, the Division agrees to a delay of further work on the MRP until mid-1985 when the mine's direction is known and will expect that the revised MRP will be submitted during the third quarter of 1985. Please coordinate your progress and anticipated date of submittal with Pam Grubaugh-Littig.

Should you have any questions, please contact the Division at your earliest convenience.

Sincerely,

Mary M. Boucek  
Permit Supervisor/  
Reclamation Biologist
